Asmara, Eritrea  
March 22<sup>nd</sup> to 24<sup>th</sup> 2011

Hands-on-training  
Hemostasis, Polypectomy  
Colonoscopy  
Rectoscopy, Proctoscopy

## Greeting address

Dear Professors, friends and colleagues,

"Hands-on" endoscopy training for arabian and african doctors is one of the goals of AGMAN, the Arabian German Medical Alumni Network, achieves with the continuous support of the DAAD.

Since 2004 we perform endoscopy courses in arabic countries and Germany. Many of our tutors are alumni who received their training both, at home and at German universities.

Our tutor teams seem to be unique, because we can offer training in Arabic, English, German and even some african languages like Tigrinya or Swahili. It's not only the language that improves courses, it's also a different cultural background that e.g. enables egyptian tutors to fit the needs and to understand the challenges of our colleagues working in other arabic and african countries.

We are very glad, that due to the sponsorship of the DAAD, Storz, and Cook already 25 attendees from several eritrean cities will joins us. It's another step in the direction to establish a central training place for endoscopy training on an international outstanding level. We appreciate the continuous support of the Ministry of Health in Eritrea.

At this time we offer several courses on bio models: Colonoscopy, polypectomy, hemostasis and laparoscopy. We look forward to a successful "hands-on" oriented endoscopy course at the "Embasoira Hamasien Hotel".

Yours sincerely

Dr. med. Martin Grauer      Dr. med. Faidi O. Mahmoud

Mrs. Hiwot Diebel, RN

## EASIE Model Training Courses

**Venue:** Embasoira Hamasien Hotel, Asmara  
Beleza 175 Street, P.O. Box - 181  
Asmara, Eritrea
